EDUCATION

- **Netaji Subhash Engineering College** Kolkata, India
Bachelor of Technology - Information Technology; GPA: 8.62 July 2018 - June 2022

SKILLS

- **Proficient In:** React, Angular, React Native, TypeScript, HTML/CSS/JS
- **Familiar With:** Redux, Spring Boot, PHP, PostgreSQL, Jasmine, JUnit, React Testing Library
- **Tools:** Postman, Git, Docker, Figma, Firebase
- **Soft Skills:** Leadership, Event Management, Time Management

EXPERIENCE

- **Magnit Global** Remote
Software Developer (Full-time) Nov 2021 - Present
 - Engineered and maintained a scalable central translation engine, streamlining multilingual localization across enterprise applications, reducing manual effort, and improving operational efficiency.
 - Designed and developed an interactive KPI dashboard using React and Chart.js, providing stakeholders with clear data visualizations through real-time charts and graphs, enabling faster insights and informed decision-making.
 - Led the seamless integration of Redux Toolkit for state management, reducing code complexity by 30% and improving application maintainability.
 - Designed and implemented role-based authentication and authorization mechanisms in Java Spring Boot, ensuring secure and seamless access management for internal and external users.
 - Developed a robust scheduling system for automating business workflows, leveraging Spring Boot's task scheduling and asynchronous processing to enhance system reliability and performance.
 - **Technologies Used :** React, Angular, Redux Toolkit, Spring Boot, PHP, PostgreSQL, Docker, Jasmine, React Testing Library, JUnit, Git
- **WillHire** Remote
Software Developer (Full-time) Nov 2020 - Nov 2021
 - Established the frontend foundation, including navigation and network layers.
 - Developed UI components using styled components for a cohesive user experience.
 - Wrote comprehensive test cases for various components.
 - Upgraded the codebase to the latest React Native version
 - **Technologies Used :** React Native, React, Redux Toolkit, SCSS, Git, Jest, React Testing Library
- **Prithvi AI** Remote
Frontend Developer (Intern) Apr 2020 - Oct 2020
 - Developed a platform connecting academia with the industrial sector.
 - Developing pixel perfect React Application from the UI prototype given and using MUI to design reusable components.
 - Working with graphs, charts and real time data.
 - **Technologies Used :** React, Chart.js, HTML, SCSS, Firebase, Git

PROJECTS

- **Portfolio - Everything about me:** A place where you can find all my works and know more about me.
Technologies Used : React, SCSS, Git
- **Scoop Box - News app:** A news aggregation app with category-based filtering.
Technologies Used : React Native, Git
- **Book your Spot:** Frontend for smart parking system allowing users to book spots online.
Technologies Used : HTML5, CSS, Git

ACHIEVEMENTS AND POSITIONS OF RESPONSIBILITY

- **Smart India Hackathon Intra-College - Winner — (2020):** Secured first place among 20+ teams in a selection event for Smart India Hackathon.
- **Developer Student Clubs, NSEC — (2019-2020):** Conducted online technical training impacting over 2000 students.
- **Google Developers Group, Kolkata — (2019-2020):** Designed UI/branding materials for DevFest Kolkata.
